At Kitchen Craft, we strive to

offer the world's most beautiful

and quality-built cabinetry at a

minimum impact for a better

quality of life.

To maintain this for today and future generations, Kitchen Craft has achieved certification in the Kitchen

Cabinet Manufacturers Association's (KCMA) Environmental Stewardship Program. This ensures our

product meets the lowest emission standards for better indoor air quality, employs the use of 100%

recycled materials, sources hardwoods from credible sustainable foresters, and adopts a company-

wide reduce and recycle program.

# kitchens

Cook up some good looks. Kitchens today combine unprecedented amenities with bold personal style. With creative combinations from Kitchen Craft, you can put together the look and the functions that fit your lifestyle. Family dinners, relaxed entertaining, formal events, casual elegance—whatever your taste and needs, our heritage and innovation are at your service. Have an idea file? A blank slate? Either way, it's easy to imagine the look you want and make it come true. It's your recipe all the way: your ingredients are ready. To express yourself, just follow the leader.

# confident

The height of sophistication, this wide sweep of contemporary richness gives you scope for entertaining on a grand scale. There's sleek strength in the height of the stacked cabinets, for a dramatic and versatile use of space throughout. With Kitchen Craft's frameless construction, you can use any space masterfully.

# sunny

It's a bright new day when you can make any space work for you, with personality! Kitchen Craft's hundreds of combinations help you design your look down to the finest of details. Here the kitchen is opened to the passage of light both inside and outside, with mouldings and cabinets enhancing a bright crispness.

**Evident style.** Yours, that is. It's easy! This moulding stack is a personal touch that defines the space with a delicate dignity. Whatever your lifestyle, Kitchen Craft gives you choices for every space.

**Character.** And lots of it in a small space. The split estate post adds a hint of classical form and carves out extra refinement while complementing the quiet lines of this kitchen.

**Sparkle.** In all the right spots. Glass doors become a unifying feature, both defining the space and connecting it to dining area and window views. Under-cabinet moulding adds depth to the corner.

## gracious

Two large islands establish the scale, detail and sculptural quality of this kitchen and anchor its open flow. Brookfield's chiseled inlays in island doors and wall cabinets display the darkness of the Espresso finish to perfection against the silvery paleness of counters and surfaces. Glass doors and plate rack enhance the open feeling.

## inviting

A kitchen-lover's dream. Defined by large butcher blocks, arrayed with cloud-white marble, this expanse of cabinets in Palomino premium finish brings professional verve and a wealth of storage options to a manor-house-inspired kitchen. The wide professional range takes center stage. Come in. Your chef's table awaits!

No matter what story you want to tell, Kitchen Craft has the assortment, the styles and finishes, and all the details to bring it together. Whether the vision is prairie chic or traditional warmth, your materials are at hand.

expressive

## lively

Entertainment never looked quite like this before. Kitchen Craft's vast array of styles and combinations is evident in the elegant coordination of maple doors in both Ginger finish and Cappuccino, creating a smooth complement to sparkling art tiles and dramatic column mouldings. Let the conversations begin.

## pristine

Premium finish Alabaster with premium glaze Pewter combine for a perfect match in the wintry brilliance of this kitchen's palette. A massive and crisply turned leg anchors the long dining island. Bright nickel fixtures punctuate polished surfaces. The antique leaded glass window fits right in, a fine personal touch for this stately space.

# other rooms

Cabinets make more than kitchens. Any room in your house can have designer flair, with the Kitchen Craft versatility of styles, finishes and details. Bathroom, work room, laundry room, nook or cranny—wherever you can use some extra organization and a dash of personal style, think Kitchen Craft. From personal spa to personal space, a fine bathroom calls for vision, be it organized retreat or inspired staging area for nights out. You know what you need. We have the ways to make it happen.

Some rooms multitask. Some do one thing beautifully. Example: a superbly many-purposed room whose trim lines suit both clerestory lighting and everyday tasks. Example: a high-style bath of straight lines and curves. Your function, your form.

tailored

## warm

A well designed bath enhances the personality of the rest of the home. That's true whether you choose cabinetry to match or contrast with other rooms. Using an arched valance, fluting and raised panel door help provide a classic formality and allow the rich finish to cast a warm glow.

Brookfield Maple Espresso

Scale at its most effective. A "floating" bank of cabinets lends cool serenity to this refined space. Wide stiles and rails and reverse-raised panels give Newhaven loads of character and inspire the shape of the elegant center column.

# euro collection

Contemporary spaces thrive on simplicity. Designing them should be simple, too. Enter the new Euro collection by Kitchen Craft, an all-embracing design concept of unencumbered surfaces and shapes for easy entertaining. Enjoy unconventional style and modern forms in door styles, embellishments, species and finishes such as bamboo, eco white oak, high gloss solid colors and high gloss wood tones. Kitchen Craft's frameless construction offers full access to cabinet interiors. Whether straight-edged or organic, industrial or glossy, your Euro look can come together in surprisingly easy ways.

Incredibly sleek. The warmth of exotic woods. The gloss of angular chic. This is modern style for a whole new century! Euro is a fusion of themes that are detailed with sophisticated embellishments (legs, casters, and hardware) in aluminum and nickel and styles from brushed to satin to reflective.

## the **euro** look

**Euro Door Styles:** Calvi, Napoli, Pamli, Sapri, Terni

**Euro Embellishments:** Aluminum Square Leg, Brushed Aluminum Tapered Leg, Brushed Aluminum Tall Tapered Leg, Aluminum Finish Caster, Nickel Leg

## lofty

Euro-flair, exotic woodgrain looks, and the sweep of urbane living all made possible by the smooth authority of thermofoil. A warm, quiet, yet highly distinctive look. Pamli's sophistication and flat panels are your necessary ingredients for efficient storage solutions, glamorous sightlines and a vision of modern living.

## forthright

State your case for the meeting of elegance and updated modern living. An open, loft-style floor plan receives a jolt of definition, as strong horizontals and verticals partner to create a lively dining and entertaining area. Add ever-useful shelves to dramatic scale and you've set the stage for a creative lifestyle.

**Towering** versatility with more options for spacious décor, wide-open entertaining. A modern look for a traditional wood such as cherry brings new energy to a room. Clean edges for an open display unit help you turn a new corner.

**Classic** Americana meets European purism in the square frame Sapri style. Cherry contrasts with high-gloss thermofoil to gorgeously define functional spaces. A deep, square edged sink finds its perfect embrace in Calvi's brilliant white.

bold

Adept use of textural contrast and daring color makes a striking statement. Here Thermofoil styles harmonize in two finishes to be confident and carefree. A distinctive stainless steel hood punctuates the open layout, for a signature that's both practical and dramatic.

**Fun.** Think anti-vintage. These are not your grandmother's glass door knobs. Glass cube pulls with glass and brushed nickel bases make spots of cool on hot red doors. Their clarity works in quantity.

**Variety.** Textured glass doors with steel frames bring subdued sparkle to a streamlined kitchen. The Euro toolkit has up-to-date embellishments—your key to making a room that is both cutting edge and stylishly personal.

**Verve.** Some cabinets get toe kicks, some get posts, some get legs. This kitchen gets it all: the aluminum square leg adds variety and punches up the interplay of tile, gloss and vertical woodgrain work area.

Golden hued, highly sustainable bamboo, punctuated by glossy black, for a warm take on mid-century modern. The continuous surfaces flow gently, detailed with open display areas and subtle, dark finger pulls.

## suave

# precise

Substantial beauty on a small stage. This corner makes the most of its functionality, for a well composed drama of neat storage and gracious serving space. The rounded proportions of the doors carve out an identity for the space, complemented by shelving and details such as wide finger pulls.

**The beauty** of frameless construction. European inspired full access cabinet design makes the difference in a small space, for increased storage and usability. Optional natural maple interior adds smooth elegance.

**This bar area** does more than serve at parties. Its strong lines bring definition to the larger room, anchoring areas for other activities; the cabinets' staggered heights add cushy texture.

**The deep pillows** on Napoli's rails and stiles are enhanced by a Black glaze over Cappuccino finish, bringing intensity to a concise, modern setting. The distinctive shape of the finger pull adds flair.

# era collection

It is the beginning of a new era, drawn from the fashions, art, interior designs and architecture of past eras. The four sections of the new Era Collection range from simple and distinguished as represented in the Colonial and Pioneer Eras to the decorative finesse seen in the Classic and Golden Age Eras. Matching hardware for each era, plus beautiful finishes and combinations of corbels, legs and decorative feet create a seamless transition from concept to finished room. These collections leave only one question: What's your era?

## classic **era**

## pioneer **era**

## colonial **era**

## golden age **era**

Clear-cut beauty that has stood the test of time, reborn for you and your life today. Experience a world of European glamour, in a suite of styles and details that show classical balance and grace.

Prairies, plains and an open spirit. Influences of Shaker style, of functional beauty. A simple dignity suitable for looks from rustic to contemporary. Styles and details with a firm grasp on the work to be done.

Think heritage. Think clean lines and community feeling. Colonial and Shaker styles that invite you to the warmth of the kitchen hearth, the family together. A gathering of styles and details with a shared spirit.

Traditional chic. From turn-of-the-century to Gatsby, with styles and details based on the authentic décor of the Art Nouveau and related periods. Experience a romance of lovely lines and details, scaled for your life today.

## classic

A fresh new start, steeped in grand European traditions of brilliant white paired with fanciful embellishments. While the Napier door is a natural with classical era styles, it has the versatility to work in many settings. Finished with PureStyle™ Laminate, Napier is both durable and easy to maintain.

The Classic Era, featuring the new Napier door, reflects the balance exhibited in traditional Greek columns and the grace of an ornate settee. Paired with the new Napier door, the glass knob dazzles, the intricate twists of the key and back plate impress, and the knob quietly tags along.

**Classic Door Style:** Napier

**Classic Finish:** Flat White

**Classic Embellishments:** Classic Bun Foot, Large Classic Open Corbel, and Lille Foot (Order classic embellishments in Maple Alabaster to match the Napier door style.)

## pioneer

Berkeley's wide rails and slab drawers give it heft and strength, making it a good match to a kitchen look of natural, uncomplicated beauty. Its simplicity fits Early North American styles, while it is also a beautiful showcase for the characteristics of rift oak, especially in rustic or Shaker-inspired settings.

The beauty of pure function, in clean-lined forms. Slightly weathered yet modest, just like a farmhouse in the Great Plains, the Pioneer Era series strikes the same tone as the Berkeley door: simple, sturdy and stylish.

PNPAC

**Pioneer Door Style:** Berkeley

**Pioneer Finishes:** Nutmeg, Tuscan, Sienna and Weathered Slate

**Pioneer Embellishments:** Medium Arts & Craft Open Corbel, 2 Side Tapered Leg, 4 Side Tapered Leg, and Square Bun Foot

## colonial

If "retro cupboard" comes to mind after studying the Elgin door, it's no accident. Born from the New Colony and Shaker styles, Elgin uses a robust design with wide rails and an inlay moulding to create a door for comfortable living spaces that retain period charm. Fair-toned finishes pair well with this door style.

A hammered surface on the Colonial Era hardware recalls the hand-worked detail that so often captures the charm of Colonial and Shaker styles. With the Elgin door, this pull and knob set revives early North American life, whether replicating the formality of church architecture or the casual comfort of a colonial front porch.

## colonial era

**Colonial Door Style:** Elgin

**Colonial Finishes:** Alabaster Pewter Glaze, Alabaster Smoke Glaze, Cappuccino, Crème Brulée, Millstone, Palomino, Portabello, Seashell, Tuscan and Weathered Slate

**Colonial Embellishments:** Colonial Corbel and Colonial Turned Post

## golden age

Inspired by art forms sweeping Europe at the turn of the 20th century, Paxson has the spirit of Art Nouveau. Pillowed rails and stiles frame the door with the curve of natural forms. Steps on the raised door panel and beading on both drawer and door invite the use of glazes to enhance depth.

Lavish embellishments and the dynamic lines of a classic roadster. Golden Age Era finger pull, cup pull and knob decorate the Paxson door as though they were straight from the Art Nouveau and Art Deco eras; indeed Kitchen Craft designers were inspired by actual antique pulls and knobs for the entire Era Collection.

Isn't it great when aesthetics also open the door to better function? In addition to an interior that radiates natural warmth from the wood and dovetail joints that are more noticeable, the revised wood drawer box offers more usable space in length and height. And the new metal drawer box, with a metallic champagne color popular in modern appliances, fits beautifully in Euro and frameless cabinets.

## drawer construction options

### Hardwood Drawer Box

- 11/16" solid hardwood sides, front and back
- 1/4" clear-coated, matching veneer plywood bottom which provides increased durability against abrasion & staining
- Furniture-quality dovetail joinery in corners
- Full extension, concealed soft-close guides extend drawer fully with closing mechanism that prevents drawer slamming

### Melamine Drawer Box

- Easy to clean, 5/8" white or natural maple melamine sides, front and back\*
- 3/16" melamine bottom
- Pinned construction in corners
- 3/4 extension, white side-mounted, epoxy coated steel guides

### Metal Drawer Box

- Full accessibility, smooth function and great appeal
- Metallic champagne sides and white or natural maple drawer bottoms and backs to match interior of cabinet
- Full extension undermount drawer slides with integrated soft-close feature
- Double-wall drawer sides
- 5/8" thick melamine drawer bottom and back
- Easy installation and two dimensional drawer front adjustment

# maple

Full of character, maple works well in many styles and finishes. It ranges from creamy white to pale reddish brown and has a subtle grain pattern and smooth, uniform appearance. It may include tiny "bird's eye" dots and mineral streaks.

# cherry

Cherry ranges from tan blonde to deep brown and darkens naturally as it ages, blending hues from golden yellow to deep red. Cherry adds elegance to any décor and can be taken back in history or forward in fashion.

# alder

Alder can range from very rustic (heartwood, streaks, pin holes, open knots) to quite clear and unmarked. The color ranges from pale red to reddish brown. A softer wood than maple or cherry, alder offers a stable surface for finishes and stains.
